REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: In view of the prior art of record, the applicants are the first inventor(s) to reduce to practice an isolated nucleic acid molecule consists of SEQ ID NO: 1 or 3 or an isolated nucleic acid encoding an amino acid sequence comprising the contiguous amino acid sequence of SEQ ID NO: 2. The limitation "completely complementary" in instant claim 4 reads on a nucleotide sequence being fully complementary to the nucleotide sequence of (a)-(c).

The closest prior art (Takino et al., WO 98/42835) was cited in the office action mailed on 5/10/05. In view of the amendment to claims 4 and 24 filed on 10/28/05, Takino does not teach or make obvious the claimed isolated nucleic molecule because the sequence taught by Takino is not directed to an isolated nucleic acid encoding an amino acid sequence comprising the contiguous amino acid sequence of SEQ ID NO: 2.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
